

TAKEUCHI LAUNCHES TL6R COMPACT TRACK LOADER

Takeuchi Japan, an innovative global leader in compact equipment, has introduced the TL6R compact track loader (CTL), an agile, compact machine that is easy to transport, and features outstanding stability and performance. The TL6R is ideal for customers in the agricultural, general contracting, landscaping and rental industries.

Powered by a Kubota 2.4 liter, 47.9 kW engine, the TL6R features a radial lift loader design with a maximum lift height of 2,905 mm, and a rated operating capacity of 835 kg. Additionally, the TL6R has a width of 1,530 mm, a height of 1,975 mm and weighs 3,395 kg with a canopy and 3,530 kg when equipped with a cab. The compact dimensions of the TL6R enable it to access and work efficiently in areas with limited space.

The TL6R features a newly designed cabin with an overhead 5.7" color multi-information display and backlit rocker switches that control a variety of machine functions. A cab with swing-out door, heat, and air conditioner are available for greater operator comfort.

The TL6R compact track loader is now available. For more information on the TL6R or the complete lineup of Takeuchi excavators and track loaders, visit www.takeuchiglobal.com.

About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact excavators and track loaders. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
