

FOR IMMEDIATE RELEASE

TAKEUCHI INTRODUCES TB225 COMPACT HYDRAULIC EXCAVATOR

Takeuchi Japan: Takeuchi an innovative global leader in compact equipment has launched the TB225 compact hydraulic excavator. Sharing the same design concept of the popular TB230, TB240, and TB260. The TB225 is a 2.3t offering that will meet the needs of a wide range of customers including general contractors, landscapers, utility contractors, and the rental industry.

With a machine weight of 2,325 kg, a dig depth of 2,455 mm, maximum reach of 4,255 mm and a bucket breakout force of 19.3 kN, the TB225 provides excellent working range and performance. Additionally, the TB225 is powered by a 16.5 kW engine, and does not require any additional exhaust after-treatment system.

The operator's station is spacious and features an automotive styled interior with a multi-informational display to keep the operator informed of machine health and condition. A cab option is available with heat and defrost that will provide year round operator comfort in varying climates and conditions.

The large opening rear engine hood allows easy access to daily and routine maintenance points, while the right side access panel provides excellent access to the battery, hydraulic tank and fuel fill. The TB225 comes standard with an automatic fuel bleed system and a retractable track frame that ranges from 1,100 mm to 1,500 mm.

For more information on the TB225 or on any Takeuchi excavator or track loader, visit www.takeuchiglobal.com.

About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders and compact excavators. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
