

FOR IMMEDIATE RELEASE

TAKEUCHI RELEASES THE NEW TB235-2 EXCAVATOR

Takeuchi Japan: Takeuchi an innovative global leader in compact equipment has launched the [TB235-2](#) compact hydraulic excavator. Sharing the same design concept of the popular [TB230](#), [TB240](#), and [TB260](#). The TB235-2 is a 3.5t offering that will meet the needs of a wide range of customers including general contractors, landscapers, utility contractors, and the rental industry.

With an operating weight of 3,465 kg, a dig depth of 3,245 mm, maximum reach of 5,225 mm and breakout force of 27.1 Kn, the TB235-2 provides excellent working range and performance. Additionally, the TB235-2 shares the 18.2 kW Yanmar 3TNV88F engine with the TB230 and requires no additional exhaust after-treatment systems.

The operator's station is spacious and features an automotive styled interior with a multi-information display to keep the operator informed of machine health and condition. A cab option is available with air conditioning and heat that will provide year round operator comfort in varying climates and conditions.

About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders and compact excavators. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
