

FOR IMMEDIATE RELEASE

## TAKEUCHI WILL BE ON DISPLAY AT THE 2019 BAUMA MACHINERY TRADE FAIR

**Takeuchi Japan:** Takeuchi, a global innovation leader along with their German distributor Schaefer will be showing Takeuchi's newest models and technology at the largest construction machinery trade fair in the world, Bauma. The trade fair will run from April 8<sup>th</sup> – 14<sup>th</sup>, 2019 in Munich, Germany.

On display will be Takeuchi's newest models, TB220e all electric excavator and the TB370. These two models have been in development for a while, and have never been on display. Visitors to Bauma will be the first ones to get a glimpse at these two new models.

The TB370 comes standard with a mono boom and optional 2-piece boom, tilt-up cabin, an 8" color touch screen display plus jog dial controls, and a 42.4 kW engine that delivers superior performance and attachment handling. As the first model of Takeuchi's new generation lineup, the TB370 has a completely redesigned automotive styled interior with intuitive user's operation, 270 degree view monitor and bucket operation angle selection device, in which the operator can switch the bucket angle between 125 deg and 195 deg from the operator's seat without getting on/off the machine.

The TB220e is the latest model of Takeuchi's lithium-ion battery lineup. Takeuchi is a leading company in lithium-ion battery excavator since we introduced the world's first fully electric hydraulic excavator at Intermat 2006. TB220e comes standard with a 25 kWh battery that delivers the same performance as the TB216 diesel version. It has a spacious operator's platform that features pilot operated joysticks and multi-informational display.

"Takeuchi is excited about displaying at the 2019 Bauma trade fair. It's a wonderful opportunity to show our new products and introduce visitors to our product line," says Akio Takeuchi, President of Takeuchi. "Bauma gives us the chance to connect and listen to our customers, and doing so is key to our success. We incorporate that feedback into each and every Takeuchi product to ensure the build quality, performance, and value is unmatched. We look forward to seeing everyone at Bauma."

### About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders and compact excavators. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
