## TAKEUCHI ADDS 6.5t CRAWLER DUMPER TO THEIR LINEUP

**Takeuchi Japan:** Takeuchi an innovative global leader in compact equipment has launched the TCR50-2 Crawler Dumper. The newest Crawler Dumper to Takeuchi's line up is a 6.5t machine offering greater functionality, performance, comfort and serviceability. The TCR50-2 is ideal for low ground pressure applications, transporting heavy loads, and operating on softer surfaces such as snow, mud, gravel, and sand. This machine meets the needs of a wide range of customers including general contractors, landscapers and utility contractors.

Standard equipment features a 5.7" multi-informational display, rear view camera, hydraulic pilot controls, 12V power outlet, radio with Bluetooth and automotive styled interior that provides the operator with all day comfort. Additionally, the TCR50-2 has an 88.4 kW engine that meets the latest emission standards with DOC, DPF, and SCR exhaust after treatment systems.

With an operating weight of 6,550 kg and a maximum loading weight of 3,770 kg this machine provides outstanding performance and durability while hauling materials on the toughest job sites. The 180-degree turning dump allows the operator to be more efficient and reduce downtime. The wide all steel construction covers on the TCR50-2 provide exceptional access to engine and routine inspection points.

"Takeuchi is excited to launch the TCR50-2 as its newest Crawler Dumper," says Toshiya Takeuchi, President of Takeuchi. "Adding this machine diversifies our product line, continuing our tradition of innovation and advancing technology. The addition of this machine to our customers Takeuchi fleets will add efficiency and simplicity, increasing their profits."

### About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders and compact excavators. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
