

FOR IMMEDIATE RELEASE

TAKEUCHI ADDS 7t EXCAVATOR TO THEIR LINEUP

Takeuchi Japan: Takeuchi an innovative global leader in compact equipment has launched the TB370 compact hydraulic excavator. This machine is the first in Takeuchi's 300 series compact excavator line. The TB370 is a 7t offering that will meet the needs of a wide range of customers including general contractors, landscapers, utility contractors, and the rental industry.

With an operating weight of 6,710 kg, a dig depth of 4,085 mm, maximum reach of 6,690 mm and bucket breakout force of 48.4 kN, the TB370 provides excellent working range and performance. The TB370 has two boom options to choose from, the standard Mono-Boom or the 2-Piece Boom. The 2-Piece Boom provides the operator with greater working range and versatility.

Additionally, the TB370 has a 42.4 kW engine that offers DOC and DPF exhaust after-treatment systems. The operator's station is spacious and features an automotive styled interior with an 8" color touch screen display to keep the operator informed of machine health and condition, as well as a new state of the art intuitive jog dial & multi-switch panel. This machine also has an optional 270-degree view monitor to increase operator vision when navigating a job site.

"Takeuchi is excited to advance to the next generation of excavators," says Toshiya Takeuchi, President of Takeuchi. "By adding this new generation excavator, we continue our tradition of innovation and advancing technology for the betterment of our community and environment. We are very pleased to offer our customers this new excavator option to add to their Takeuchi fleet."

About Takeuchi

Takeuchi is an ISO 9001 certified manufacturer of an extensive line of compact track loaders and compact excavators. Founded in 1963, Takeuchi has led the way in new product development and introduced the world's first compact excavator in 1971. In 1986, Takeuchi developed and launched the first compact rubber track loader that was ideal for the rough terrain operations, another world first. These two products have transformed the global construction equipment market.
